

February 23, 2013

To Whom It May Concern,

This letter of reference is issued on behalf of Pennsafe Building Inspection Services, LLC.

Pennsafe is a relatively young Code inspection company that consists of key personnel with diverse Code experience. Prior to Pennsafe's beginning, I interacted professionally on numerous occasions with several of these individuals with regard to plan reviews, Code interpretation inquiries and construction inspection services. That interaction has continued with Pennsafe.

We at Young & Associates have found the Pennsafe group to be very Code proficient, interpreting the "letter" of the Uniform Construction Code in a practical and balanced manner that achieves the "intent" of the Code. They are professional in their day-to-day dealings and respond in a helpful and timely manner.

I heartily recommend Pennsafe Building Inspection Services, LLC to you for plan review and inspection services.

Sincerely,

W.J. Young, P.E.
President
